# OVENS

To ensure your oven is suitable for your requirements there are a number of factors to consider. The size, style, space and amount of cooking undertaken will determine whether a single or double oven is right for you. If you often cook several dishes at once, a larger capacity oven will enable you to save time and energy.

Keen cooks can also benefit from innovative touch screen displays that can be set to your cooking habits and temperature programmes to ensure your food is cooked to perfection. Other features to consider are pyrolytic self-cleaning programmes for easy oven care. Discover more by browsing the wide range of integrated and freestanding models available in store.

## ADD ONS

Décor joining strips, used horizontally or vertically ensure a seamless finish between appliances.

Single oven capacity can reach up to 74 litres.

## COMPACT APPLIANCES

A compact oven provides greater flexibility in the kitchen whilst making the most of your cooking space. A combination compact oven with microwave provides the functionality of an oven for bigger meals with microwave facilities for when you're short on time. And if healthy eating is a priority, a wide range of steam ovens are available.

## SLIDE&HIDE®

Exclusive to NEFF the Slide&Hide® door provides optimum oven access with its unique retracting oven door, creating a flexible approach and allowing extra space in your kitchen. Ask in store for a demonstration.

## RANGE COOKERS

Versatile, stylish and with a number of different cooking options available, range cookers are perfect for bigger spaces. Choose from both traditional and contemporary models from leading brands and in a range of sizes, colours and fuel types. You'll find something to suit any kitchen.

# HOBS

Combining practical, stylish and high level cooking performance, your chosen hob will provide an integral service in your kitchen. Induction, gas and ceramic hobs are available in a range of sizes.

## INDUCTION HOBS

Minimalist in design, induction hobs offer a safe and energy efficient option whilst also operating quicker than a ceramic hob spacing. For demanding cooking requirements a flexible induction hob provides the ability to heat varying pan sizes positioned anywhere.

## DOMINO HOBS

With a variety of formations, a domino hob provides a flexible cooking solution. With different heat zones such as an induction hob, wok burner or Teppan Yaki, a bespoke cooking area can be created to suit your individual requirements.

# COOKER HOODS

Whether you choose a traditional wall-mounted chimney design, a sleek island hood or contemporary downdraft style, your hood needs to keep your kitchen ventilated.

Hoods are needed to help get rid of moisture and odours caused by cooking and can be extracted externally or alternatively recirculation kits are available with the option to operate using a remote control.

## STYLE FILE — DESIGNER HOODS

Making a statement in the kitchen has never been easier. Statement cooker hoods combine stunning designs with noise and energy efficient features. Enhance your kitchen and add a sense of style to your living space.

# REFRIGERATION

From double American styles to retro options, the latest refrigeration models will add style and functionality to any kitchen. Improvements in insulation have led to larger capacity refrigeration becoming more widely available but it is essential that the overall dimensions of your room are factored in. Integrated models are a convenient option for more compact spaces and can incorporate a variety of features to suit your requirements such as produce drawers to ensure freshness.

## INNOVATIVE IDEAS

The latest cooling innovations include a range of integrated water and ice dispensers to fast-cool settings to chill your weekly shop in no time. Climate controlled zones provide a variety of temperatures for different food types, maximising their shelf life. LED lighting strips help you to see the contents of your fridge more clearly whilst door alarms ensure you never walk away without closing the door tightly again.

## NEW TECHNOLOGY

Introducing the latest innovations, fridges which incorporate a built-in camera so you can remotely check what's inside your fridge before you go shopping. Gone are the days of running out of milk!

# EXTRAS

## COFFEE MACHINES

An integrated coffee machine is the ideal investment for those who can't live without their morning caffeine fix. Our built-in models can make a range of cafe-style drinks at the touch of a button, without cluttering up your worktops with additional gadgets.

## DISHWASHERS

Saving you time, dishwashers have become a real kitchen must-have. Forget about scrubbing your pots and pans and let the dishwasher do the hard work with a range of eco-functions to ensure less water usage. Choose from freestanding models that fit neatly under your counter top or integrated designs to blend seamlessly into your kitchen.

## WINE COOLERS

Whilst your fridge may contain enough space to store a few bottles, if you're serious about wine or simply love to entertain, investing in an undercounter or integrated wine cooler should be considered. Dual zones can be incorporated to house both red, white and sparkling wines at the correct temperature.

# TESTIMONIALS

“ I would like to say how pleased we are with all of the staff at Melksham. This is what makes the difference between Leekes and other stores, this personal touch made us feel as if Leekes really care, so that the whole design matched, even the kettle and toaster were from Leekes. It is very pleasing to have a store with a team where assistants can move from one department to another to produce, not only a good kitchen, but a fully designed room so that everything looks good. ”

STAFFORD BURNDRED, MELKSHAM

“ We recently had a Sheraton wood shaker oyster kitchen fitted at our property. We are extremely pleased with the quality of the kitchen and the ease of the fitting process. The Cross Hands design team helped us select the best possible layout for the space that we had, and was very helpful when it came to changes that we wanted to make later with regards to the appliances ordered. At each stage when we had any questions we were able to get hold of someone either via email or over the phone to fine tune the design. Both I and my wife would like to thank Leekes for helping us get our dream kitchen. ”

COLIN DAVIES, LLANELLI
